PETERBILT OF SPRINGFIELD DONATES TWO TRUCKS AND ENDOWS LARSON FAMILY SCHOLARSHIP.

August 2, 2010

Springfield, MO - Peterbilt of Springfield, Inc. has gifted two Peterbilt tractors to the Ozark Technical Community College (OTC) Transport Training Institute truck driver training program. We are pleased to make this donation to enhance the innovative educational leadership at OTC while giving back to the community. These tractors will be utilized in OTC's truck driving program and will help students gain real-world driving experience preparing for the Commercial Driver License (CDL) exam as well as gaining practical knowledge of the workings of the motor, transmission, and electronics.

Along with the donation of two tractors, Peterbilt of Springfield also created an endowed scholarship named The Larson Family Scholarship, which will assist students in need of financial assistance. The Larson Group is proud to partner with OTC and contribute to the future of the trucking industry. We know many students are in need of financial assistance and believe that contributing to the continuing their education is something we are proud to be a part of.

The Larson Group is ISO 9001:2008 Certified and has been a Peterbilt dealer group for over 22 years. TLG operates seven exclusive Peterbilt dealerships with locations that service the following states: Arkansas, Illinois, Indiana, Kentucky and Missouri. The Springfield location was recently named North American Dealer of the year by Peterbilt Motors Company.
